PILANI ROAD CHIRAWA

## CHAIRMAN'S MESSAGE

I deem it great privilege and pleasure in welcoming you to S S College Chirawa. Education is the basis of all progress. It is for this very reason that we forayed into education. Our vision is based on open communication, hard work, a high level of responsibility and a strong emphasis on teamwork. This is a time when the higher education system is undergoing a paradigm shift with seasonal changes in curricula, industry demands and chaotic situation in the job market. Our vision allows and emphasises our wards to adopt the present day challenges and fulfilling their individual responsibilities to society and our nation at large.

Learning should be based on doing things and not merely knowing things. In my opinion, the whole process of learning will remain superficial until and unless learning solutions relate to real life and motivate the learner to acquire and apply the knowledge gained. The entire purpose of education is

not to restrict itself to imparting bookish knowledge only but inculcate humanitarian values like wisdom, compassion, courage, humility, integrity, and reliability in a student. S S College, Chirawa concentrates on the holistic development of the individual apart from imparting education of a high order. Our College has set specific objectives and planned activities for achieving excellence in all spheres of education. Like you, we just believe in holistic education for your child, encompassing – academics, co-curricular activities, sports education, and life-skills learning. Our endeavor is to strike a balance between state-of-the-art infrastructure, facilities, faculties, and an internationally acceptable education. The campus, sports and academic facilities all bear testimony to this effort. The college is endowed with highly equipped laboratories of contemporary gadgets and excellent infrastructure. At S S College, Chirawa we will impart an education that is based on conscience and we will try to rear a breed of young minds that are bursting with self-confidence, motivation and ever ready to take up challenges. People who feel good about themselves produce good results and people who produce good results feel good about themselves. We also believe in total learning and sharing. The promise of the S S College, Chirawa in creating personally mature, professionally equipped and service-oriented graduates is really worth mentioning. We strongly believe in academic excellence and do not compromise on teaching standards or discipline. These three things are the springboards on which we operate. We have perhaps the best of highly qualified and devoted faculty, with a good mentoring system in place. Further, the College inculcates in the students a respect for tradition and ensures discipline and good manners.

I am sure any student coming to this college would be a proud alumnus when they graduate from here.
